## Message from the EUSA Technical Delegate – Basketball

**Peter George**  
TD Basketball

Dear participants,

This is the third edition of the European Universities Games. After Cordoba and Rotterdam, this year we are in the wonderful city of Zagreb.

Never before did we have such a large tournament, consisting of twenty men's teams and sixteen women's teams. It is the largest tournament we had in history.

I wish all of you - players, coaches, officials, team followers and all others involved in the Games a very comfortable stay and an interesting tournament.

I also wish the referees all the best - hoping the Games will be successful for them, and that fairness and sportsmanship behavior will outweigh.

I wish all the teams great success and may the best team win the championship.

Best regards.

## Message from the OC Technical Delegate – Basketball

**Kresimir Savic**  
LOC TD Basketball

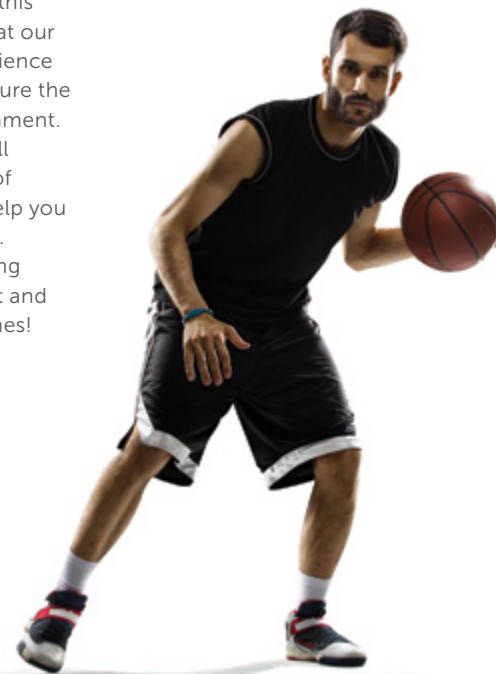

Dear student athletes, coaches, referees and all participants of the basketball tournament of the third European Universities Games 2016 in Zagreb!

I would like to welcome all of you to Zagreb, to what will be the biggest ever held basketball event of student sport in Europe. A total of 36 teams (20 men's and 16 women's teams) will compete in 5 basketball halls throughout the course of 7 days. The competition will reach its climax on the day of the finals at the Basketball Center Drazen Petrovic.

Between the opening day and the finals, I wish you not only to enjoy competing with your fellow students from 16 different countries, but to use the chance to get to know and explore the great city of Zagreb as well. The capital of Croatia, which has been around for more than 900 years, has much to offer, best embodied in its motto: Zagreb, the city with a million hearts.

I would like to thank the Croatian Basketball Federation and the Basketball Federation of Zagreb for the opportunity to be part of this event and I can assure you that our basketball heritage and experience will be at your disposal to ensure the smooth running of the tournament. Teams consisting of basketball professionals, as well as lots of volunteers, will be ready to help you and make you feel welcomed.

I'm looking forward to seeing you all during the tournament and enjoying great basketball games!

## Fair play

Fair play is deeply embedded in the values of EUSA. The objective of promotion and encouragement of Fair Play is set already in the statutes of EUSA, as part of the core objectives of the organisation. Partnership with the European Fair Play Movement in 2013 proves this even more. Since 2007, EUSA announces the best gesture of fair play in its sports event for the current year and awards the winners the special fair play recognition, Enno Harms Fair Play Award, named after the first EUSA President, very much devoted to fair play.

During each of the EUSA sporting event, the organisers, EUSA representatives and technical delegates pay special attention to the fair play gestures and attitude. At every sports event a part of the protocol is the oath of the athletes and officials, which includes respecting fair-play.

In some team sports, the athletes demonstrating fair play during the matches, following the rules and pursuing a “clean” game are awarded with a fair play recognition already during the event. The prestigious annual EUSA Enno Harms Fair Play Award, though, is awarded to the best example of fair play, for the individual’s or team’s mentality and actions which stand out the most.

EUSA Executive Committee members on its last meeting in a year discuss the proposals received from all sporting events governed by EUSA in that year and select the team or individual to receive the annual fair play award which is formally handed to them at a special occasion – usually at an EUSA Gala event.

# Anti-Doping Policy

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they loved and lived for. An even bigger problem of doping are the effects on the body.

In elite sports, doping is defined as a violation of one or more anti-doping rules:

- 1 Presence of a prohibited substance in an athlete's sample**
- 2 Use or attempted use of a prohibited substance or method**
- 3 Refusing to submit sample collection after being notified**
- 4 Failure to file athlete whereabouts information & missed tests**
- 5 Tampering with any part of the doping control process**
- 6 Possession of a prohibited substance or method**

## **7 Trafficking a prohibited substance or method**

## **8 Administering or attempting to administer a prohibited substance or method to an athlete**

You can find the list of prohibited substances and methods on the internet. It's updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport. You should check every substance you are taking. Athletes need to completely avoid steroids, erythropoietin (EPO), stimulants, human growth hormone (HGH), marijuana and narcotics, and pay special attention also to dietary or nutritional supplements.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADI), project aimed at establishing an European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on all levels of the

complex social environment surrounding the doping problematic and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also the International University Sport Federation (FISU) has been actively promoting sports without drugs, also on university sport level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent sportsman or sportswoman?

- **Practise right and live healthy**
- **Get more information about consequences of Doping**
- **Play fair and be a good role model to younger athletes**
- **BE COMMITTED TO SPORT WITHOUT DOPING**

**Doping? No, thanks!**

## About Basketball in Croatia and Zagreb

If you say the word "basketball" anywhere in Zagreb, most of the pedestrians, if not all, will point you to the Basketball Center Drazen Petrovic, a place which represents basketball, the home of basketball in Zagreb, built during the greatest days of the basketball club Cibona, the double European Club Champion.

Ever since the sport has been invented by Professor James Naismith in the USA, basketball meant much for Croatia: from the late 1920s, when the first basketball game was played in Zagreb, all the way to Croatian Independence and the final of the 1992 Barcelona Olympics, played between the Croatian national team and the original Dream Team, all the way to hosting the Eurobasket in 2015. Medals were won, there were victories and defeats, but, more important, basketball here has a long history and a bright future.

Croatia won the Olympic silver medal in 1992, the bronze medal at the European Championship in 1993 and 1995 as well as the bronze medal at the 1994 World Championship.

The basketball club Cibona won the European Club Championship twice, while Jugoplastika (now known as Split) won it three times, among other titles.

Both male and female Croatian national teams have won several European Championships in the past years, establishing the future of Croatian basketball.

Many Croatian players have played or

still play in the NBA, representing the country at the highest level possible. Players such as Drazen Petrovic, a true pioneer of not only Croatian but also European basketball in the NBA, Stojko Vrankovic, Dino Rada and Toni Kukoc all left a big mark. Following their footsteps are players such as Mario Hezonja, Dario Saric, and other young players that have been selected to play in the NBA.

Also, Kresimir Cosic, a true legend of Croatian basketball, has connected the entire basketball world, not only as a player, but also as a coach and a visionary - both on and off the court.

All that, and much more, will make your visit to Croatia special.

## Protests

The HoD or authorized by him representative of team may protest on behalf of competitors or team. Each protest shall be accompanied by a deposit two hundred (200) EUR. If the protest is upheld, the fee will be returned.

The protests shall be submitted:

- within twenty (20) minutes after the end of the match to the EUSA Technical Delegate for the match issues,
- before the start of next competition day on published results to the EUSA Technical Delegate for the published issues,

- during the competition to the EUG Competition Commission for technical issues,
- during the competition to the SCAC for non-technical issues,
- within seven (7) days after the EUG to the EUSA Executive Committee for the EUG issues.

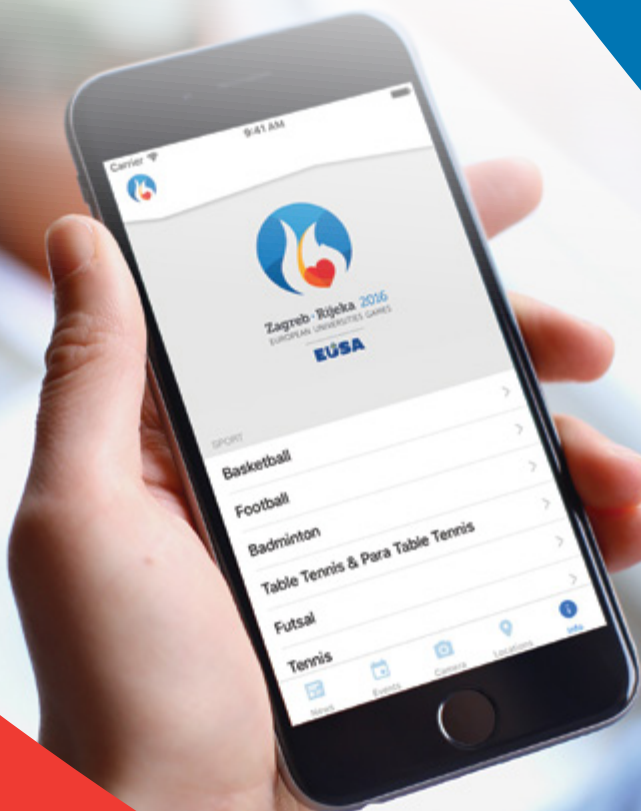

Protests on referee decisions are not allowed, if it is not regulated differently in the ESF/ISF Regulations of the respective sport.

The submission of the protest can be submitted also in the Resolution desk, at the EUG Headquarter.
