Message from the EUSA Technical Delegate – Chess

Grandmaster Oleksandr Sulypa
EUSA TD Chess

Dear players, dear guests!

The game of chess is a noble ancient one. It is indeed a sport that teaches us many skills and qualities on which we can draw in many other areas of our lives. Chess requires the patience to study carefully what is taking place on the board and to take responsibility for our actions so that we do not make a rash move, which we will later regret. We must be aware of our opponents' strengths and weaknesses and try to anticipate their strategies. And, of course, having played so many games of chess I am sure you have all learnt one of life's most important lessons; how to be compassionate in victory and gracious in defeat.

Croatia has collected many achievements and produced a lot of successful chess players.

The Croatian Chess Federation has organized many FIDE and ECU official competitions and numerous international events.

The EUG 2016 in Zagreb will proudly continue that tradition.

I am sure that the participants will have a wonderful time in Zagreb and I wish them all a great tournament.

Message from the OC Technical Delegate – Chess

Grandmaster **Alojzije Jankovic**
Technical director

Dear students, dear guests,
welcome to Zagreb!

We are very glad that a chess competition has been included in this year's edition of European Universities Games. I am sure the competition will grow with each passing year as chess is one of the most massive sports in the world.

As a grandmaster and former student I am very pleased that you are combining studying with playing chess. It is a great combination since chess improves concentration, logical thinking, decision making etc., which will surely help you later in your career. Our team will try to make this event a memorable one!

I wish you a pleasant stay in Zagreb and don't hesitate to ask if you have any questions. We are looking forward to see you again in Croatia in the future, and I am sure you will realize Croatia is a country which is worth visiting more than once.

Good luck in the competition!

Fair play

Fair play is deeply embedded in the values of EUSA. The objective of promotion and encouragement of Fair Play is set already in the statutes of EUSA, as part of the core objectives of the organisation. Partnership with the European Fair Play Movement in 2013 proves this even more. Since 2007, EUSA announces the best gesture of fair play in its sports event for the current year and awards the winners the special fair play recognition, Enno Harms Fair Play Award, named after the first EUSA President, very much devoted to fair play.

During each of the EUSA sporting event, the organisers, EUSA representatives and technical delegates pay special attention to the fair play gestures and attitude. At every sports event a part of the protocol is the oath of the athletes and officials, which includes respecting fair-play.

In some team sports, the athletes demonstrating fair play during the matches, following the rules and pursuing a "clean" game are awarded with a fair play recognition already during the event. The prestigious annual EUSA Enno Harms Fair Play Award, though, is awarded to the best example of fair play, for the individual's or team's mentality and actions which stand out the most.

EUSA Executive Committee members on its last meeting in a year discuss the proposals received from all sporting events governed by EUSA in that year and select the team or individual to receive the annual fair play award which is formally handed to them at a special occasion – usually at an EUSA Gala event.

Anti-Doping Policy

Doping is not a guarantee of success in sport. In fact, its effect is usually the opposite. A lot of elite sportsmen and sportswomen who did doping got caught. As a result, they lost pride and were banned for at least 2 years from participating in a sport they loved and lived for. An even bigger problem of doping are the effects on the body.

In elite sports, doping is defined as a violation of one or more anti-doping rules:

- 1 Presence of a prohibited substance in an athlete's sample**
- 2 Use or attempted use of a prohibited substance or method**
- 3 Refusing to submit sample collection after being notified**
- 4 Failure to file athlete whereabouts information & missed tests**
- 5 Tampering with any part of the doping control process**
- 6 Possession of a prohibited substance or method**

7 Trafficking a prohibited substance or method

8 Administering or attempting to administer a prohibited substance or method to an athlete

You can find the list of prohibited substances and methods on the internet. It's updated every year by the World Anti-Doping Agency (WADA) and it's valid for every sport. You should check every substance you are taking. Athletes need to completely avoid steroids, erythropoietin (EPO), stimulants, human growth hormone (HGH), marijuana and narcotics, and pay special attention also to dietary or nutritional supplements.

EUSA is active in Anti-Doping promotion, and has been a partner in the European Anti-Doping Initiative (EADI), project aimed at establishing an European-wide Anti-Doping mentality in the youth sector by establishing a moral tenor towards concepts such as Fair-play, sensitizing and raising awareness on all levels of the

complex social environment surrounding the doping problematic and implementing strategies to motivate young people to pass on the message and create a strong multiplying effect. Also the International University Sport Federation (FISU) has been actively promoting sports without drugs, also on university sport level.

EUSA is currently not enforcing doping tests at our events. In accordance with the national legislation of the host countries, however, doping controls may be implemented by the National Anti-Doping Agencies. If such doping tests are executed, the WADA rules and regulations are applicable to all athletes. Please remember that testing can be conducted in-competition and out-of-competition. If you are identified in a Registered Testing Pool (RTP), you must provide current and accurate whereabouts information.

What can you do to be an excellent sportsman or sportswoman?

- **Practise right and live healthy**
- **Get more information about consequences of Doping**
- **Play fair and be a good role model to younger athletes**
- **BE COMMITTED TO SPORT WITHOUT DOPING**

Doping? No, thanks!

About Chess in Croatia

Croatia has a rich and long chess tradition, even our coat of arms is a chessboard! The Croatian Chess Federation is more than 100 years old and there is also a chess magazine called "Šahovski Glasnik" with a similar tradition.

One of the best Chess Olympiads was organized in Dubrovnik in 1950. In 1970, Zagreb hosted a very important tournament called 'the Tournament of Peace' and the winner was the legendary Robert James Fischer. Almost every modern chess champion has visited Croatia: Kasparov, Karpov, Spassky, Petrosian, just to name a few. In recent times we had had pretty good success, in 2006 Grandmaster Zdenko Kozul became the European chess champion. Our national team is among the top 20 in the world. At the last Olympiad our best player Ivan Saric won the game against no other than the World Champion himself - Magnus Carlsen! In Croatia, there are many Open

tournaments, which are very attractive since they are a combination of sporting and touristic activities.

Serbia	University of Belgrade
Slovenia	University of Ljubljana
Turkey	Mustafa Kemal University

REFEREE LIST

Eduard Piacun
Mate Ivancic (IA), Chief Arbiter
Marko Bosiocic (NA)
Josip Bandur (FA)
Vid Brzica (NA)

Awards

	Achievement	Competition category	Title for winner
Cups	1 st , 2 nd , 3 rd	Team	European Universities Champion
Medals	1 st , 2 nd , 3 rd	Team (athletes, officials) Individual (athletes)	European Universities Champion
Other awards	Blitz	Athlete	Winner

Protests

The HoD or authorized by him representative of team may protest on behalf of competitors or team. Each protest shall be accompanied by a deposit fifty (50) EUR. If the protest is upheld, the fee will be returned. The protests shall be submitted:

- within twenty (20) minutes after the end of the match to the EUSA Technical Delegate for the match issues,
- before the start of next competition day on published results to the EUSA Technical Delegate for the published issues,

- during the competition to the EUG Competition Commission for technical issues,
- during the competition to the SCAC for non-technical issues,
- within seven (7) days after the EUG to the EUSA Executive Committee for the EUG issues.

Protests on referee decisions are not allowed, if it is not regulated differently in the ESF/ISF Regulations of the respective sport.

The submission of the protest can be submitted also in the Resolution desk, at the EUG Headquarter.
